Original inspiring art as affordable limited editions - this is the idea behind the online Zeitgeist Toys Gallery. To deliver best in class quality we are working together with White Wall - the market leader in Europe. The high end lambda photographic images are printed on Fuji Crystal Archive Paper mounted on 3-ply aluminium for extra stability and protected under 2mm acrylic glass using permanently elastic silicone as sealing. FujiFilm certifies the photographic paper's true-to-color promise for 75 years. Additionally WhiteWall offers you a 5-year guarantee on the craftsmanship of all products. To receive your art print in perfect condition they use exclusive art-safety packaging, which is custom-made to fit exactly to the individual format. Corners are protected with styrofoam. Extremely large formats are packed in custom-fit wooden crates.
